DETAILED ACTION

Information Disclosure Statement

1. The IDS of 11/25/08 lists five NPL references that are in excess of 1200 pages (Reference 2 alone is 627 pages). The references do not comply with 37 CFR 1.98(b) (5) wherein the relevant pages have not been indicated. The references have been placed in the file; however they have not been reviewed in any particular detail. The applicant is invited to indicate any particular passages in these jumbo documents that provide relevance to the claimed invention. Furthermore, no date has been listed for any of the NPL documents on the IDS. If the applicant is not aware of the month and year of the publication the applicant should point out that the year of publication is sufficiently earlier than the effective U.S. filing date and any foreign priority date so that the particular month of publication is not in issue.

Claim Objections

2. Claim 28 is objected to because of the following informalities: It is unclear if "FPC" should be "FCP". Appropriate correction is required.

Allowable Subject Matter

3. Claims 1-6, 8, 9 and 28 are allowed.
